Mesquite is a bird sanctuary.

WAYS TO TAKE CARE OF MESQUITE

Recycle at home, school and work.

Save water by watering early in the morning or late in the evening.

Landscape with native Texas plants.

Save energy by turning off lights and the TV when you're not using them.

Keep the air clean. Walk, ride your bike, or ride share when going somewhere.

Reuse things by sharing or donating toys, books and clothes, etc.

Compost fruit and vegetable scraps, and yard waste.

Pick up pet waste from yards, park trails and sidewalks.

Use pesticides and herbicides sparingly on lawns and gardens, and only after considering more natural methods of control.

Keep toxins such as engine oils, paint thinners, and pesticides out of sewers, septic tanks, and storm drains; use carefully and dispose of them safely.
