Presentation Details

Each presentation is approximately 20-30 minutes in length. Students will have an opportunity to participate in an environmental activity, meet Lucky the Ladybug and receive a gift. Due to various commitments, Lucky the Ladybug and staff are only available on dates posted to our website at www.KeepMesquiteBeautiful.org. Presentations can target various age groups at one time or focus on one age group. Due to limited availability, we are only able to come to your school once a school year. Presentations work best in the cafeteria. Our primary goal is to have fun and learn about recycling!
