

REAL. TEXAS. SERVICE. CHAMPION

Michael Wallander, Electrical/ Energy Inspector

As an Electrical and Energy Inspector in the Planning and Development Services Department, Michael inspects electrical projects from new and remodeled homes to large commercial projects.

Michael has worked hard to become certified for various types of inspections, including plumbing and property maintenance as well as electrical and energy. This has made Michael a valuable asset to the city as he is able to fill in for other inspections and this aids the city in maintaining efficient service to customers.

Michael has earned the respect of both his co-workers and the public for his professionalism in a variety of situations.
