

REAL. TEXAS. SERVICE. CHAMPION

Derek Dupree, Line Service Technician

Customer service is the essence of what Derek Dupree does for the City's Mesquite Metro Airport. As the Line Service Technician, Derek keeps the aircraft filled with fuel and offers concierge assistance to passengers.

Derek showcases his genuine care for people through his eagerness to offer "top flight" service to the pilots and passengers that choose Mesquite as their destination.

The growth of the Mesquite Metro Airport can be found in the customer service it offers, and Derek is at the core of that amenity by exemplifying the pillars of the CARE message all employees embody.
