

## **REAL. TEXAS. SERVICE. CHAMPION**

### **Joe Martinez, Building Inspector**

Joe is a Building Inspector for the Planning and Development Department. Joe conducts routine inspections of apartments and responds to issues brought to the City's attention by residents of apartment communities.

Joe was instrumental in getting hundreds of citizens back in their homes following the massive winter storm, working extra hours assuring that apartment property owners were repairing pipes, restoring water and cleaning up damage. His dedication resulted in Mesquite's apartment residents getting back in their homes much sooner than others in surrounding cities.

Joe's customer service skills are second to none. He treats everyone with respect and is an asset to the City of Mesquite and the community we serve.

There is no need to "inspect" Joe's dedication to Mesquite as he truly exemplifies city's CARE values by going the extra mile as a public servant.
