

REAL. TEXAS. SERVICE. CHAMPION

Terry Sprinkle, Facilities Management

Terry Sprinkle works as the Lead Facilities Maintenance Technician for Facilities Management. He performs repairs as needed to complete work orders, including HVAC, electrical, plumbing, and life safety systems. In addition, Terry serves as the City of Mesquite's locksmith.

Terry is always a key go-to person for special projects that are outside his normal responsibilities. He trains other employees and is known as the "leader in the clubhouse" to the rest of the division. He is flexible, enjoying a wide variety of tasks and willing to learn new skills, such as welding.

Terry delivers consistently with professional and complete service on every job he takes on. He is specifically asked for by the City Manager and several Mayors over his tenure to perform tasks in their offices and is a good steward of taxpayer dollars by finding cost effective ways to solve problems. He is a true Real. Texas. Service. Champion.
