

**Life Saving Award #5
October 11, 2016**

On October 11, 2016, Ambulance 02 and Engine 02 were dispatched to a possible stroke victim. Upon arrival, paramedics found the patient in bed and unresponsive to all stimuli. Paramedics moved patient to a stretcher for transport and started a 12-lead EKG when patient went into cardiac arrest. After 30 seconds of CPR, the patient started responding and regained a pulse. Respirations were assisted enroute to the hospital. Thanks to the dedication and expertise displayed by paramedics, this patient was discharged from the hospital at a later date.
